

To The commission,

October 8, 2005

I have been at several meetings yet there is not enough time to discuss it all and I know this is a big task for the commission at hand. Many thoughts enter my mind wondering if this commission is real or as a person has said at one of the meetings. Is this real or just going through the motions to make it look like something is being done? Just like the web site I saw Jail for judges the jail for judges have no power what's so ever to do anything, it's so sad because lots of the people who do attend the Jail for judges meetings from what I have heard are careering people, and I believe that if they had the power would put many judges in jail if only they had the authority to do so.

I pray that this commission is real and that it won't let the corruption of the courts, bar or both for that matter interfere with any part of this investigation or bury the truth or sweep it under a rug. I Pray that this commission takes it a pond themselves to actually look at some of these cases that the people are speaking about. There is no doubt in my mind that the corruption is at its worst. Everything I have heard and everything I have been trough with NH Attorney's, Judges, Child Support, the feminist that work in our system as well. And yes our judicial system.

When Attorneys and judges don't care about the truth and punish the innocent especially when the truth is put right in front of there faces yet they still punish the fathers of this state that's bad, what right does a Judge have to Judge and enforce law when they won't abide by the law themselves. I have no faith in our system or judicial system what so ever, I have seen conspiracy, lies, false, statements, and yes even Judges lie in there court orders defaming a man to destroy him. It was done to me and from what I hear there are millions of us dads out there suffering the same fate. History is repeating itself just like the French revolution when the Judges and Attorney's and yes government where destroying people for the greed of money, so the people fought and spilled there blood for our CONSTITUTION and our system does not honor it. How far will it go this time I wonder, will there be another war.

The more the father try's to see his children the more he is punished by the courts, I am witness to it all, how child support and dcys work with the attorneys against men, how the clerk of courts mostly women treat men for I saw how I was treated by them all. A man has absolutely nowhere to turn; a man is pushed to his limits from the judicial system and child support itself that at times men commit suicide because he is destroyed beyond repair financially and emotionally driven to the ground like a dog then they snap. Let me tell you something men are human beings.

So WE THE PEOPLE have had enough yes I live in fear not just because of the fear of my ex wife taking me back to court again but in fear of my life from the system itself. If this commission really is real and concerned then I say investigate many of the cases and trust me you will find tons of injustice, corruption beyond your wildest dreams, men who have fought for there country and yes many died for there country and for what to be destroyed in 15 minutes that will last a lifetime of defeat for dads and yet our children suffer the most look real good at our society. Each

Judge, Marital Master, and Attorney should and must be investigated to put a stop to all the corruption, put them in jail for there perjury, corruption, and lies. So once again I pray this commission be real and real justice comes to past. Restore Article 37, Restore our true CONSTITUTION and HONOR our CIVIL RIGHTS. Pass HB 529 and HB 541
